(b) the operator and the custodian of the collective investment scheme have given notice in writing to the Authority that he wishes it to be recognised.

(b) that adequate arrangements exist, or will exist, for co-operation between the authorities of the country or territory responsible for the licensing and supervision of comparable licensed collective investment schemes.

Procedure for refusal of recognition.

226. (1) If the Authority proposes to refuse recognition it must give the operator or the custodian of the collective investment scheme a warning notice.

(2) If, having given a warning notice, the Authority decides to refuse approval it must give the operator or the custodian of the collective investment scheme a decision notice.

(5) The Authority may, either on its own initiative or on the application of the operator or the custodian of the collective investment scheme, revoke or vary a direction given under this section if it appears to the Authority —

(a) in the case of revocation, that it is no longer necessary for the direction to take effect or continue in force; or

(b) in the case of variation, that the direction should take effect or continue in force in a different form.

Application to Court.

(3) If the Authority proposes to give a direction or gives such a direction with immediate effect, it must give a separate notice in writing to the operator and the custodian, as the case may be, of the collective investment scheme.

(4) The notice must —

(2) The conditions are that —

(a) the behaviour is based on information which is not generally available to those using the market but which, if available to a regular user of the market, would or would be likely to be regarded by him as relevant when deciding the terms on which transactions in investments of the kind in question should be effected;

(b) the behaviour is likely to give a regular user of the market a false or misleading impression as to the supply of, or demand for, or as to the price or value of, investments of the kind in question; and
